Tower (Centennial) Mine
Second Response to Mid-term Review
Task 3406

Dear Mr. Haddock:

Enclosed are six (6 ea.) copies of the second response to the mid-term review, Task 3406. As you are aware, the mine is presently in temporary idle status due to economic and marketing conditions, and may resume production at such time as economic conditions improve. The existing GVH installations are maintained as a vital and integral component of the overall mine ventilation system, necessary for the safety of the underground workforce, and will remain in a stand-by status until such time as the mine resumes operation.

Should you have any questions regarding this issue, please feel free to contact me

Sincerely,

David Shaver
Resident Agent
